

Julie Biedrzycki (“Julie B”) has been teaching since 2001. She studied Environmental Science and Policy at the University of Maryland College Park. For 20 years now, she has taught all ages from preschoolers to adults, and everyone in between, and in a wide variety of settings- from public to private schools, non-profit organizations, traditional classrooms, gardens, and for the National Parks. Julie specializes in nature education, and is passionate about gardening, wild foraging, herbalism, and sustainable living. Julie brings both experience and enthusiasm to her work, and is currently the President of the Board for Ancestral Knowledge 501(c)3, a primitive skills and nature connection organization. A lifelong learner and dedicated teacher, Julie is always finding inspiration in the natural world and is eager to share it with others.
